### Beyond Corporate Purpose: Elephants, Rhinos & People ('ERP')

Our Group operates under a hybrid business model in terms of which we fund and run an in-house nonprofit, so that we go 'Beyond Corporate Purpose' in our day-to-day activities. Rather than implementing a traditional corporate social responsibility program and simply donating funds to charities, with 'Beyond Corporate Purpose' we operate a professionalized, institutional nonprofit delivery capability, the primary focus of which is the protection and conservation of Elephants and Rhinos in the wild, through an unusual strategy based on the economic upliftment of impoverished rural People in areas adjacent to the threatened species, or another definition of 'ERP', if you will.

Should we be successful in winning this engagement, we will channel 1% (one percent) of our net revenues deriving therefrom, to ERP projects. You would be able to choose from a range of projects towards which the funds would be directed, and our ERP staff will provide you with ongoing monitoring and evaluation, and reporting, at your election. Please note that the monies do not constitute an elective add-on to our fees, but would rather be taken out of our revenues.
